## Information needed for Hebrew texts

If you will be ordering a Hebrew text for your ketubah, there is some information I will need from you before I can start work on your ketubah. Please be sure to contact your rabbi or officiant if you need help.

### Why do you need to know all this?

I need this information to accurately complete the Hebrew text with your names, the location, and the date of the wedding. I need to know your parents' Hebrew names because the Hebrew text in a ketubah follows the Jewish tradition for writing your names, combining your Hebrew name with the names of your parents (e.g. Jacob ben Joseph v'Hannah, which translates as "Jacob son of Joseph and Hannah"). Knowing the wedding time lets me know the correct date on the Jewish calendar.

We need to ask some of the more personal questions so that we can add the traditional honorifics to the members of your family. For example, if someone has passed away, the initials Z"L are added to their Hebrew name, which means "zichron livracha" or "may their memory be a blessing".

### What if someone does not have a Hebrew name?

If someone does not have a Hebrew name, just provide their first name in English. We will then write their name phonetically using Hebrew characters.
